## **ACKNOWLEDGEMENTS**

Bismillahirrahmanirrahim,

Firstly, praise to Allah S.W.T. for giving me patient and spirit throughout this project and the research is successfully complete, with the mercifulness from Allah therefore I can produce a lot of useful idea to this project.

To my beloved father and mother, Che Ani Bin Ahmad and Salmah Binti Ismail, I am grateful to have both of you in my life and giving me full of support and pray to go through this life. I pray and wish to both of you are always in a good health and in Allah mercy. You are the most precious gift from Allah to me.

I am indebted to my supervisor Dr Yasir Hashim Naif, the lecturer from the Faculty of Technology Engineering for his advice, insightful comments and generous support. Thank you for your guide and without your guide this research will not complete and well organized. And not forgetting to Sir Wan Hassan Bin Wan Hamat for his technical support and guidance.

Not forgotten to all my beloved teammates who have accompanied me through this project. Thank you very much.
